

INTAMET

STAINLESS STEELS NICKEL ALLOYS EXOTICS

International. Independent. Insist on Intamet.

## International

Intamet is a specialist international stockholder and distributor of Stainless Steels and Nickel Alloys, with probably the world's largest range of Tube, Pipe, Fittings, Flanges and Special Sections available from stock – in both metric and imperial dimensions.

We sell materials to Distributors throughout the world, as well as to the Petrochemical, Construction, Architectural, Nuclear, Marine, Power Generation and Engineering industries.

## Independent

As an independent company with partners throughout Europe, the USA and Asia, Intamet offers completely unrestricted sourcing and supply from producers around the globe, including the option of fast-track manufacturing.

## The Intamet Advantage

With stock exceeding 15,000 line items available for immediate despatch, together with bi-weekly deliveries from Europe and the USA, supply options are limitless. When time is of the essence, customers can rest assured that Intamet has the experience, resources and logistics to source and deliver any materials they require – from anywhere around the world – in the shortest possible time.

## Integrated Project Management

Intamet also provides a range of supplementary services requested by customers, including:

- Third Party Inspection
- Special Testing and Re-qualification
- Colour Coding and Contract-Specific Marking
- End Beveling and Capping
- Export Packing
- Documentation Management

## Informed Staff

With the benefit of ongoing training, Intamet staff are prepared for every new development in the industries they serve, and so can provide the very highest standard of service always expected – and always received – by their customers.

And as a member of the BSSA (British Stainless Steel Association), Intamet is at the forefront of stainless steel product knowledge, development and evolution.

## In Touch 24-7/365

Because Intamet is an international concern, contact is not limited merely to UK business hours. Staff are always just a phone call away at any time of day or night, for any reason whatsoever.

## Immediately-Available Stock Grades

Intamet's standard stock grades include:

### Specifications

ASTM / ASME / DIN / EN / UNS

### Stainless Steels

303  
304 / 304L  
304H  
321 / 321H  
347 / 347H  
316 / 316L / 316H / 316Ti  
317L  
310 / 310s / 1.4841  
904L  
Duplex UNS S31803 – F51 / 2205  
6 Moly – UNS S31254

### Nickel Alloys

Alloy 400  
Alloy 600  
Alloy 601  
Alloy 625  
Alloy 800 / 800H  
Alloy 825

### Exotic

Alloy C276  
Alloy B3  
Alloy X

PETROCHEMICAL CON

The widest range of stainless steel and nickel alloys in all forms for the petrochemical, construction, architectural, marine and nuclear industries.

## The Ideal Material For Every Project

Intamet frequently sources and selects materials that meet exacting mechanical and physical properties and project driven requirements *over and above that of standard specification*, without compromise.

Materials certified in accordance with EN 10204 (available in hard form or electronically). For the Petrochemical market, materials are generally sourced from PED 97/23 compliant manufacturers.

## The Intamet Invitation

Please take a moment to consider how much of your valuable time and resources are taken up by the process of sourcing, ordering, transporting, handling, storage and documentation of your specialist material requirements.

And then contact us to discover precisely how much of your time and resources can be recouped by taking advantage of Intamet's complete service.

## Intamet – the Intelligent Choice

International. Independent. No wonder so many companies around the world requiring stainless steel and nickel alloys insist on Intamet for:

- Experience
- Range
- Quality
- Flexibility
- Delivery
- Conformance
